

HTML Fundamentals: A Milestone Achieved! 🎉

A Journey Through HTML Elements and Attributes 🛠️

We've made some impressive strides in our HTML and CSS course, and it's time for a well-deserved checkpoint! 🎯

HTML Tags We've Explored 📦

- From the foundational to the functional, we've covered a multitude of HTML tags including but not limited to:
 - DOCTYPE
 - html
 - head
 - title
 - meta
 - link ...and so much more!

Attributes Understood 🧡

- It's not just about the tags, we've also delved deep into attributes to make our HTML smarter:
 - lang
 - name
 - content ...you get the idea!

Your Next Steps 🚀

We've covered an ocean of information, but the beauty of learning is that there's always more to discover! Fortunately, you're now well-equipped to explore further on your own. And, we've got a couple of lifelines for you:

- [W3schools](#)
- [Mozilla Developer Docs](#)

We're Here for You! 💬

This learning journey is yours, but remember, you're never alone. Feel free to reach out with questions or if you're seeking guidance. We're always here to help! 😊
